Dear Valued Policyholder,

Thank you for placing your hospitality business with us!

USLI and your agent are committed to helping you identify potential hazards in your establishment to ensure a safe and healthy environment. Being a business owner means investing time and money to deliver a high-quality customer experience. Many factors can come between you and the safety of your business and patrons. By taking the necessary steps to assess and control your exposures to risk, you are on your way to better protecting your business, employees and customers.

There are ways to minimize risk, prevent injury and reduce out-of-pocket expenses and insurance premiums by addressing specific areas of your business.

The attached checklist is a tool you can use to take inventory of your business and identify areas needing attention. The most common incidents we see are listed below.

Most Common Causes

- ▶ Electrical and cooking fires
- ▶ Slip/Fall injuries caused by wet floors, cracked or uneven sidewalks, parking lots and decks
- ▶ Food poisoning and objects in food
- ▶ Alcohol and non-alcohol related altercations with patrons and bouncers
- ▶ DUI resulting from the over-service of alcohol

Your policy offers access to free and discounted resources through the Business Resource Center. Check it out today by visiting www.bizresourcecenter.com.

We are here to help! Contact us today if you have any questions about what you find.

“An ounce of prevention is worth a pound of cure.”
–Benjamin Franklin
